Tolkien's Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy) By Verlyn Flieger, Carl F. Hostetter

As a scholar of medieval languages and literature, J.R.R. Tolkien brought to his fiction an intense interest in myth and legend. When he died in 1973, he left behind a vast body of unpublished material related to his fictive mythology. Now edited and published as *The History of Middle-earth* by his son and literary executor, Christopher Tolkien, these 12 volumes provide a record of the growth of J.R.R. Tolkien's mythology from its beginnings in 1917 to the time of his death more than 50 years later. The material in these volumes offers an unparalleled insight into Tolkien's process of myth-making and is a guide to the world of his literary works. This book is the first comprehensive critical examination of Christopher Tolkien's compilation of his father's Middle-earth legends.

An opening essay by Rayner Unwin, Tolkien's publisher for many years, surveys the publication history of the collection. The essays that follow, each written by an expert contributor, explore a wide range of topics related to *The History of Middle-earth*. Included are discussions of Tolkien's languages, the evolution of his vision over time, the shifting importance of central characters, and the effect of his mythology on *The Lord of the Rings*. By exploring this mythological compendium, the volume sheds further light on the entire body of J.R.R. Tolkien's works and is a valuable resource for all readers interested in his writings.

Editorial Review

Review

"[t]he first sustained to demonstrate the importance of the HOME series for the study of Tolkien's work....[p]rovides a varied though traditional selection of potential approaches to the newly available material of the HOME series. As such, it is a good start and establishes a bridgehead on the new continent that has appeared out of the Tolkien-archives. It also makes clear that much work remains to be done-be this in the area of traditional scholarly research, or in the implementation of more recent critical approaches, such as the 'death of the author' or the 'unstable text'....[a] step into the right direction and it is to be hoped that the dialogue wil continue."-Fleisch La chair Flesh

"These essays are rich in complexity and detail and are recommended for college-level students of Tolkien's writings....An excellent set of technical discussions on the inviting world of Tolkien."-Reviewer's Bookwatch

"[T]hese analyses are refreshingly free of turgid prose or theoretical bias. The author's obvious appreciation for their subjects of study does not preclude either ritical acuity or scholarly rigor....[T]his is a well-produced book on acid-free paper--both its physical package and its intellectual content are designed to last."-The Monthly Bulletin of the Mythopoeic Society

About the Author

VERLYN FLIEGER is Professor of English at the University of Maryland, where she teaches courses in Tolkien, Medieval Literature, Comparative Mythology, and Fantasy and Science Fiction./e She is the author of two books on Tolkien and has published articles on Tolkien, C.S. Lewis, Charles Williams, Austin Tappan Wright, and E.R. Eddison.

CARL F. HOSTETTER is a computer scientist at NASA's Goddard Space Flight Center. His chief scholarly interest of the past 15 years has been the invented languages of J.R.R. Tolkien, and he has edited a journal devoted to the subject, *Vinyar Tengwar*, since 1989. He is also a member of a project to order, transcribe, and edit Tolkien's unpublished linguistic papers.

Users Review

From reader reviews:

Brian Nelson:

Playing with family within a park, coming to see the marine world or hanging out with good friends is thing that usually you may have done when you have spare time, after that why you don't try thing that really opposite from that. One particular activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Tolkien's *Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy)*, you could enjoy both. It is fine combination right, you still desire to miss it? What kind of hang-out type is it? Oh can happen its mind hangout folks. What? Still don't have it, oh come on its known as reading friends.

Lynn Jones:

This Tolkien's *Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy)* is completely new way for you who has attention to look for some information mainly because it relief your hunger details. Getting deeper you upon it getting knowledge more you know or you who still having tiny amount of digest in reading this Tolkien's *Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy)* can be the light food for you because the information inside this book is easy to get by anyone. These books develop itself in the form which is reachable by anyone, sure I mean in the e-book contact form. People who think that in e-book form make them feel tired even dizzy this e-book is the answer. So there is no in reading a reserve especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the idea! Just read this e-book kind for your better life and also knowledge.

Marcus Huskins:

In this era which is the greater man or woman or who has ability in doing something more are more valuable than other. Do you want to become one of it? It is just simple strategy to have that. What you have to do is just spending your time almost no but quite enough to have a look at some books. Among the books in the top list in your reading list will be Tolkien's *Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy)*. This book which can be qualified as *The Hungry Slopes* can get you closer in growing to be precious person. By looking way up and review this guide you can get many advantages.

Pamela Stanley:

That reserve can make you to feel relax. This particular book *Tolkien's Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy)* was colorful and of course has pictures on the website. As we know that book *Tolkien's Legendarium: Essays on The History of Middle-earth (Contributions to the Study of Science Fiction & Fantasy)* has many kinds or variety. Start from kids until adolescents. For example *Naruto* or *Private investigator Conan* you can read and believe you are the character on there. Therefore not at all of book are generally make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book in your case and try to like reading in which.
