Semantic Analysis: A Practical Introduction (Oxford Textbooks in Linguistics) By Cliff Goddard

This lively textbook introduces students and scholars to practical and precise methods for articulating the meanings of words and sentences, and for revealing connections between language and culture. Topics range over emotions, speech acts, words for animals and artifacts, motion, activity verbs, causatives, discourse particles, and nonverbal communication. Alongside English, it features a wide range of other languages, including Malay, Chinese, Japanese, Polish, Spanish, and Australian Aboriginal languages. Undergraduates, graduate students and professional linguists alike will benefit from Goddard's wide-ranging summaries, clear explanations and analytical depth. Meaning is fundamental to language and linguistics. This book shows that the study of meaning can be rigorous, insightful and exciting.

Editorial Review

Review

a valuable textbook grounded in the Natural Semantic Metalanguage theory, with enough breadth and depth to be suitable for most basic semantics courses. Onna Nelson, *Studies in Language*

About the Author

Cliff Goddard is Professor of Linguistics at Griffith University, Australia. He was previously Professor of Linguistics, University of New England. His books include *The Languages of East and Southeast Asia* (O.U.P. 2005). He is co-editor with Anna Wierzbicka of *Meaning and Universal Grammar* (Benjamins 2002) with whom he is currently working on a book concerned with words and meanings.

Users Review

David Ashworth:

Reading a book to get new life style in this 12 months; every people loves to examine a book. When you

read a book you can get a large amount of benefit. When you read books, you can improve your knowledge, since book has a lot of information into it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your analysis, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this sort of us novel, comics, and soon. The Semantic Analysis: A Practical Introduction (Oxford Textbooks in Linguistics) will give you a new experience in reading a book.

Jessie Henricks:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library as well as to make summary for some book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Semantic Analysis: A Practical Introduction (Oxford Textbooks in Linguistics) can make you feel more interested to read.
