The Collected Works of Samuel Taylor Coleridge, Volume 15: Opus Maximum (Bollingen Series (General)) By Samuel Taylor Coleridge

The *Opus Maximum* gathers the last major body of unpublished prose writings by Samuel Taylor Coleridge. Consisting primarily of fragments dictated to Joseph Henry Green, probably between 1819 and 1823, these writings represent all that exists of what Coleridge considered to be "the principal Labour" and "the great Object" of his life, which he called variously the *Logosophia* and *Magnum Opus*.

Dedicated to "the reconciliation of the moral faith with the Reason," Coleridge's envisioned *Magnum Opus* was supposed to "reduce all knowledges into harmony." While such a synthesis finally eluded him, and the *Magnum Opus* remained unfinished, the surviving fragments nonetheless bear powerful witness to Coleridge's engagement with theology, moral philosophy, natural philosophy, and logic, among other disciplines. Among the subjects that will particularly interest readers are Coleridge's criticisms of Epicureanism, pantheism, and German Naturphilosophie; his attempt to ground reason in faith; and his reflections on personhood (especially in the relationship between mother and child), on will, on language, and on the Logos.

Previously unknown to all but a handful of scholars, the manuscripts presented here provide valuable insight into a crucial period of Coleridge's intellectual development, as he became increasingly dissatisfied with *Naturphilosophie* and struggled to affirm Trinitarian Christianity on a rational basis. With this volume, *The Collected Works of Samuel Taylor Coleridge*, begun forty years ago under the sponsorship of the Bollingen Foundation and the editorship of the late Kathleen Coburn, is now complete.
