A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) By John H Lienhard V, John H Lienhard IV

This introduction to heat transfer offers advanced undergraduate and graduate engineering students a solid foundation in the subjects of conduction, convection, radiation, and phase-change, in addition to the related topic of mass transfer. A staple of engineering courses around the world for more than three decades, it has been revised and updated regularly by the authors, a pair of recognized experts in the field. The text addresses the implications, limitations, and meanings of many aspects of heat transfer, connecting the subject to its real-world applications and developing students' insight into related phenomena. Three introductory chapters form a minicourse in heat transfer, covering all of the subjects discussed in detail in subsequent chapters. This unique and effective feature introduces heat exchangers early in the development, rather than at the end. The authors also present a novel and simplified method for dimensional analysis, and they capitalize on the similarity of natural convection and film condensation to develop these two topics in a parallel manner. Worked examples and end-of-chapter exercises appear throughout the book, along with well-drawn, illuminating figures.

Editorial Review

Users Review

From reader reviews:

Kara Corbett:

The book A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) can give more knowledge and information about everything you want. Why then must we leave the best thing like a book A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering)? A number of you have a different opinion about e-book. But one aim in which book can give many facts for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or information that you take for that, you may give for each other; you can share all of these. Book A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) has simple shape however, you know: it has great and massive function for you. You can appearance the enormous world by start and read a book. So it is very wonderful.

Douglas Barney:

Spent a free the perfect time to be fun activity to do! A lot of people spent their sparetime with their family, or their friends. Usually they accomplishing activity like watching television, likely to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Will you something different to fill your free time/ holiday? May be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to test look for book, may be the book untitled A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) can be fine book to read. May be it could be best activity to you.

Bertha Morrison:

A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) can be one of your basic books that are good idea. All of us recommend that straight away because this guide has good vocabulary that may increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The author giving his/her effort to put every word into enjoyment arrangement in writing A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) yet doesn't forget the main level, giving the reader the hottest in addition to based confirm resource info that maybe you can be one among it. This great information can certainly drawn you into new stage of crucial pondering.

Ronnie Johnson:

This A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) is great e-book

for you because the content that is full of information for you who else always deal with world and get to make decision every minute. This particular book reveal it information accurately using great coordinate word or we can state no rambling sentences in it. So if you are read the idea hurriedly you can have whole facts in it. Doesn't mean it only will give you straight forward sentences but tricky core information with lovely delivering sentences. Having A Heat Transfer Textbook: Fourth Edition (Dover Civil and Mechanical Engineering) in your hand like getting the world in your arm, info in it is not ridiculous one particular. We can say that no guide that offer you world in ten or fifteen moment right but this publication already do that. So , this really is good reading book. Hello Mr. and Mrs. occupied do you still doubt that will?
