**MyWritingLab should only be purchased when required by an instructor.**

*For courses in Writing Across the Curriculum or Writing About Biology.*

## **Developing the tools to effectively write about biology**

Teaching biology and strong writing skills simultaneously is a challenge, especially when students exhibit a range of abilities. The **Ninth Edition** of *A Short Guide to Writing about Biology* provides tools to strengthen student writing and reinforce critical thinking.

Written by a prominent biologist, this best-selling guide teaches students to express ideas clearly and concisely. It emphasizes writing as a way of examining, evaluating, and refining ideas: students learn to read critically, study, evaluate and report data, and communicate with clarity.

Using a narrative style, the text is its own example of good analytical writing. In this new edition, students learn how to avoid plagiarism (Ch 1 and 3), read and interpret data (Ch 3, 4 and 9), prepare effective Materials and Methods sections in research reports and more (Ch 9), and prepare manuscripts for submission (Ch 9). The text also provides advice on locating useful sources (Ch 2), maintaining laboratory and field notebooks (Ch 9), communicating with different audiences (Ch 6 and 10), and crafting research proposals (Ch 10), poster presentations (Ch 11), and letters of application (Ch 12).

## **Also available with MyWritingLab™**

This title is also available with MyWritingLab — an online homework, tutorial, and assessment program that provides engaging experiences for teaching and learning. Flexible and easily customizable, MyWritingLab helps improve

students' writing through context-based learning. Whether through self-study or instructor-led learning, MyWritingLab supports and complements course work.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Michael Harmon:**

What do you in relation to book? It is not important to you? Or just adding material when you want something to explain what the one you have problem? How about your time? Or are you busy man? If you don't have spare time to perform others business, it is give you a sense of feeling bored faster. And you have time? What did you do? Every individual has many questions above. They must answer that question due to the fact just their can do which. It said that about publication. Book is familiar on every person. Yes, it is suitable. Because start from on jardín de infancia until university need that A Short Guide to Writing about Biology (9th Edition) to read.

##### **Mary Williams:**

Spent a free time to be fun activity to try and do! A lot of people spent their sparetime with their family, or their very own friends. Usually they doing activity like watching television, about to beach, or picnic inside park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your own free time/ holiday? May be reading a book can be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the reserve untitled A Short Guide to Writing about Biology (9th Edition) can be good book to read. May be it might be best activity to you.

##### **John Moore:**

Are you kind of busy person, only have 10 or perhaps 15 minute in your day to upgrading your mind talent or thinking skill possibly analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your limited time to read it because pretty much everything time you only find publication that need more time to be study. A Short Guide to Writing about Biology (9th Edition) can be your answer given it can be read by a person who have those short time problems.

##### **Armando Morris:**

A lot of people said that they feel uninterested when they reading a reserve. They are directly felt this when they get a half parts of the book. You can choose the book A Short Guide to Writing about Biology (9th Edition) to make your current reading is interesting. Your current skill of reading ability is developing when you including reading. Try to choose basic book to make you enjoy you just read it and mingle the opinion about book and reading especially. It is to be first opinion for you to like to wide open a book and learn it.

Beside that the publication A Short Guide to Writing about Biology (9th Edition) can to be your brand new friend when you're feel alone and confuse with the information must you're doing of this time.
