*By Michael J. Economides, A. Daniel Hill, Christine Ehlig-Economides, Ding Zhu*

**Petroleum Production Systems (2nd Edition)** By Michael J. Economides, A. Daniel Hill, Christine Ehlig-Economides, Ding Zhu

**The Definitive Guide to Petroleum Production Systems—Now Fully Updated With the Industry's Most Valuable New Techniques**

*Petroleum Production Systems, Second Edition*, is the comprehensive source for clear and fundamental methods for about modern petroleum production engineering practice. Written by four leading experts, it thoroughly introduces modern principles of petroleum production systems design and operation, fully considering the combined behavior of reservoirs, surface equipment, pipeline systems, and storage facilities. Long considered the definitive text for production engineers, this edition adds extensive new coverage of hydraulic fracturing, with emphasis on well productivity optimization. It presents new chapters on horizontal wells and well performance evaluation, including production data analysis and sand management.

## **This edition features**

- A structured approach spanning classical production engineering, well testing, production logging, artificial lift, and matrix and hydraulic fracture stimulation
- Revisions throughout to reflect recent innovations and extensive feedback from both students and colleagues
- Detailed coverage of modern best practices and their rationales
- Unconventional oil and gas well design
- Many new examples and problems
- Detailed data sets for three characteristic reservoir types: an undersaturated oil reservoir, a saturated oil reservoir, and a gas reservoir

### Editorial Review

#### About the Author

**Michael J. Economides** is professor of engineering at the University of Houston. His work focuses on optimizing hydrocarbon production from reservoir to market. A leading energy analyst, he is editor-in-chief of *Energy Tribune* and the *Journal of Natural Gas Science and Engineering*.

**A. Daniel Hill** is professor in the Harold Vance Department of Petroleum Engineering at Texas A&M University, holds the R.L. Whiting endowed chair, and is a Distinguished Member of the Society of Petroleum Engineers (SPE).

**Christine Ehlig-Economides** is professor in the Harold Vance Department of Petroleum Engineering at Texas A&M University and holds the A.B. Stevens endowed chair. She is a member of the U.S. National Academy of Engineering.

**Ding Zhu**, is associate professor in the Harold Vance Department of Petroleum Engineering at Texas A&M University, holds the W.D. Von Gonten Faculty Fellowship, and is a Distinguished Member of the Society of Petroleum Engineers (SPE).

### Users Review

#### From reader reviews:

##### Donald Campbell:

The reserve untitled Petroleum Production Systems (2nd Edition) is the e-book that recommended to you to see. You can see the quality of the book content that will be shown to you. The language that author use to explained their way of doing something is easily to understand. The article writer was did a lot of investigation when write the book, so the information that they share to you is absolutely accurate. You also will get the e-book of Petroleum Production Systems (2nd Edition) from the publisher to make you a lot more enjoy free time.

##### Ashley Taylor:

Petroleum Production Systems (2nd Edition) can be one of your beginning books that are good idea. Many of us recommend that straight away because this guide has good vocabulary which could increase your knowledge in vocab, easy to understand, bit entertaining but still delivering the information. The article writer giving his/her effort that will put every word into joy arrangement in writing Petroleum Production Systems (2nd Edition) yet doesn't forget the main place, giving the reader the hottest as well as based confirm resource facts that maybe you can be among it. This great information can drawn you into brand-new stage of crucial considering.

**Anthony Parker:**

In this particular era which is the greater man or woman or who has ability in doing something more are more important than other. Do you want to become considered one of it? It is just simple strategy to have that. What you have to do is just spending your time not very much but quite enough to experience a look at some books. One of many books in the top collection in your reading list is actually Petroleum Production Systems (2nd Edition). This book which is qualified as The Hungry Inclines can get you closer in getting precious person. By looking right up and review this guide you can get many advantages.

**Dwight Richardson:**

You can find this Petroleum Production Systems (2nd Edition) by go to the bookstore or Mall. Just simply viewing or reviewing it might to be your solve difficulty if you get difficulties to your knowledge. Kinds of this publication are various. Not only through written or printed but can you enjoy this book by simply e-book. In the modern era just like now, you just looking by your mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose correct ways for you.
