## The Oxford Handbook of the History of Nationalism (Oxford Handbooks)

By John Breuilly

*The Oxford Handbook of the History of Nationalism* comprises thirty six essays by an international team of leading scholars, providing a global coverage of the history of nationalism in its different aspects - ideas, sentiments, politics. Every chapter takes the form of an interpretative essay which, by a combination of thematic focus, comparison, and regional perspective enables the reader to understand nationalism as a distinct and global historical subject.

The book covers the emergence of nationalist ideas, sentiments, and cultural movements before the formation of a world of nation-states as well as nationalist politics before and after the era of the nation-state, with chapters covering Europe, the Middle East, North-East Asia, South Asia, South-East Asia, and the Americas. Essays on everyday national sentiment and race ideas in fascism are accompanied by chapters on nationalist movements opposed to existing nation-states, nationalism and international relations, and the role of external intervention into nationalist disputes within states. In addition, the book looks at the major challenges to nationalism: international socialism, religion, pan-nationalism, and globalization, before a final section considering how historians have approached the subject of nationalism.

Taken separately, the chapters in this Handbook will deepen understanding of nationalism in particular times and places; taken together they will enable the reader to see nationalism as a distinct subject in modern world history.

### Editorial Review

#### Review

an impressive volume of easy-to-read, clear and concise essays ... an extremely thorough and illuminating book. Gilles Andreani, *Survival* All students of nationalism will want to possess this volume. Not only are the individual contributions excellent, with useful up-to-date bibliographies, but there is a bonus in the form of helpful chronologies and maps showing the worldwide spread of nationalism. Krishan Kumar, *International Affairs* Taken at once, the book juxtaposes advances from numerous regional and thematic subfields to open up theoretical vistas for specialists. At the same time, its chapters decorate this theoretical tableau with rich detail. As such the book will engage both students and lay readers. Eric Kaufmann, LSE Review of Books The book is both a handy reference to the state of the field and the place for students and experts alike to begin an investigation of a complex and fraught subject which never seems to lose its potency to disturb ... Breuilly has provided one of the best places to delve deeply into the murky and turbulent waters of national history. In an age when ethnic and religious conflicts roil our world, understanding how we ended up with the nation form may be a useful first step to thinking beyond that confining framework. Ronald Grigor Suny, English Historical Review

#### About the Author

**John Breuilly** is Professor of Nationalism and Ethnicity at the London School of Economics. His main interests are in the history and theory of nationalism and in modern European, especially German history. Recent book publications include *Austria, Prussia and the Making of Modern Germany, 1806-1871* (2011), *Nationalism, Power and Modernity in Nineteenth-Century Germany* (2007), and articles and chapters on charismatic leadership and nationalism and on nationalism and global history. He is currently working on a book on the global history of nationalism, also to be published by Oxford University Press.

### Users Review

#### From reader reviews:

##### **Kenneth Tillman:**
