The Java Language Specification, Java SE 8 Edition (Java Series) By James Gosling, Bill Joy, Guy L. Steele Jr., Gilad Bracha, Alex Buckley

Written by the inventors of the technology, *The Java® Language Specification, Java SE 8 Edition* is the definitive technical reference for the Java programming language.

The book provides complete, accurate, and detailed coverage of the Java programming language. It fully describes the new features added in Java SE 8, including lambda expressions, method references, default methods, type annotations, and repeating annotations. The book also includes many explanatory notes and carefully distinguishes the formal rules of the language from the practical behavior of compilers.

Editorial Review

From the Back Cover

Written by the inventors of the technology, *The Java® Language Specification, Java SE 8 Edition* is the definitive technical reference for the Java programming language. The book provides complete, accurate, and detailed coverage of the Java programming language. It fully describes the new features added in Java SE 8, including lambda expressions, method references, default methods, type annotations, and repeating annotations. The book also includes many explanatory notes and carefully distinguishes the formal rules of the language from the practical behavior of compilers.

About the Author

James Gosling is the creator of the Java programming language and a former Fellow at Sun Microsystems. He developed the original Java compiler and Java Virtual Machine, and was a principal in the Andrew project at Carnegie Mellon University, where he earned a Ph.D. in Computer Science. He joined Liquid Robotics as Chief Software Architect in 2011.

Bill Joy is a co-founder of Sun Microsystems and was the principal architect of the Berkeley version of UNIX®, for which he received a lifetime achievement award from the USENIX Association in 1993. Joy has had a central role in shaping the Java programming language. He joined KPCB as a Greentech Partner in 2005.

Guy L. Steele Jr. is a Software Architect at Oracle Labs, where he conducts research in language design and implementation strategies, parallel algorithms, and computer arithmetic. Steele is a co-creator of the Scheme programming language, an ACM Fellow, an IEEE Fellow, and a member of the National Academy of Engineering.

Gilad Bracha is the creator of the Newspeak programming language and a former Distinguished Engineer at Sun Microsystems. Prior to Sun, he worked on Strongtalk, the Animorphic Smalltalk System. He holds a Ph.D. in Computer Science from the University of Utah.

Alex Buckley is the Specification Lead for the Java programming language and the Java Virtual Machine at Oracle. He holds a Ph.D. in Computing from Imperial College London.

Users Review

From reader reviews:

Matthew Schwartz:

In this 21st millennium, people become competitive in every single way. By being competitive today, people have to do something to make these individuals survive, being in the middle of the particular crowded place and notice by simply surrounding. One thing that sometimes many people have underestimated the item for a while is reading. That's why, by reading a book your ability to survive improves then having chance to remain than other is high. For you who want to start reading any book, we give you this particular The Java

Language Specification, Java SE 8 Edition (Java Series) book as beginning and daily reading reserve. Why, because this book is usually more than just a book.

Ann Potter:

This The Java Language Specification, Java SE 8 Edition (Java Series) are generally reliable for you who want to be described as a successful person, why. The explanation of this The Java Language Specification, Java SE 8 Edition (Java Series) can be one of the great books you must have will be giving you more than just simple examining food but feed an individual with information that maybe will shock your previous knowledge. This book will be handy, you can bring it almost everywhere and whenever your conditions in the e-book and printed types. Beside that this The Java Language Specification, Java SE 8 Edition (Java Series) forcing you to have an enormous of experience including rich vocabulary, giving you demo of critical thinking that we understand it useful in your day action. So , let's have it and luxuriate in reading.

Pamela Acuna:

The actual book The Java Language Specification, Java SE 8 Edition (Java Series) has a lot details on it. So when you make sure to read this book you can get a lot of advantage. The book was authored by the very famous author. Mcdougal makes some research before write this book. This kind of book very easy to read you can find the point easily after reading this article book.

Aurora Ammon:

Is it an individual who having spare time in that case spend it whole day through watching television programs or just telling lies on the bed? Do you need something new? This The Java Language Specification, Java SE 8 Edition (Java Series) can be the reply, oh how comes? The new book you know. You are thus out of date, spending your spare time by reading in this fresh era is common not a nerd activity. So what these guides have than the others?
