**Foundations of Qt Development (Expert's Voice in Open Source)** By *Johan Thelin*

Qt is one of the most influential graphical toolkits for the Linux operating system and is quickly being adopted on other platforms (Windows, Mac OS) as well. It is necessary to learn for all Linux programmers. This book takes the reader step by step through the complexities of Qt, laying the groundwork that allows the reader to make the step from novice to professional. This book is full of real world examples that can be quickly integrated into a developer's project. While the reader is assumed to be a beginner at Qt development, they are required to have a working knowledge of C++ programming.

### **Editorial Review**

#### **About the Author**

Johan Thelin has worked with software development since 1995 and has experience ranging from embedded systems to server-side enterprise software. He started using Qt in 2000 and has loved using it ever since. Since 2002, he has provided the Qt community with tutorials, articles, and help (most notably, he wrote the "Independent Qt Tutorial"). He works as a consultant focusing on embedded systems, FPGA design, and software development.

### **Users Review**

#### **From reader reviews:**

##### **Erica Rawlins:**

Information is provisions for people to get better life, information today can get by anyone on everywhere. The information can be a information or any news even a concern. What people must be consider while those information which is within the former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one the actual resource are convinced. If you receive the unstable resource then you buy it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take Foundations of Qt Development (Expert's Voice in Open Source) as your daily resource information.

##### **Timothy Kahle:**

Exactly why? Because this Foundations of Qt Development (Expert's Voice in Open Source) is an unordinary book that the inside of the book waiting for you to snap this but latter it will distress you with the secret this inside. Reading this book adjacent to it was fantastic author who also write the book in such amazing way makes the content on the inside easier to understand, entertaining method but still convey the meaning completely. So , it is good for you for not hesitating having this nowadays or you going to regret it. This excellent book will give you a lot of benefits than the other book get such as help improving your expertise and your critical thinking method. So , still want to delay having that book? If I ended up you I will go to the guide store hurriedly.

##### **Michael Major:**
