## Blood: Principles and Practice of Hematology By Robert I. Handlin

This basic haematology text discusses aspects of the basic science of haematology as well as the clinical diagnosis and treatment of the spectrum of blood diseases. This book aims to provide a balanced presentation, with appropriate weighing of the basic sciences and clinical science. It is designed for the academic and practitioner in haematology, for whom it should be a valuable resource and reference. It should serve physicians in other fields who are interested in studying a specific topic in haematology, but its clinical sections should assist the students and physicians seeking practical guidance. Tables and figures are included and references are provided.
