Education, Exclusion and Citizenship By Carl Parsons

Education, Exclusion and Citizenship provides a hard-hitting account of the realities of exclusion, examining the behaviour which typically results in exclusion, and asks questions about a society which communally neglects those most in need.

Permanent exclusions from schools continue to rise. As schools compete with neighbouring schools for 'good' pupils, managers and heads are choosing to exclude disruptive pupils who might affect school image.

The book looks at the experience of excluded children, the law regulating exclusion, the obligations of the LEAs, and focuses on prevention and early intervention strategies.
